C-5 row triggered rigodon in Senate

By Christine D. Amador
and Tara Quiñones

A CONFRONTATION IN THE SENATE yesterday triggered the top position of the chamber. Sen. JPE (left) one of the leaders of a military revolt in 1986 that led to the fall of President Marcos and the rise of Ferdinand Marcos.

It was late morning. JPE, a former senator, had just arrived at the Senate building. He was wearing a white shirt and a dark tie. He was looking at his watch. He was looking at the clock. He was looking at the time.

'Kaya Natin!' leaders back Senate probe of P728-M fertilizer scam

MANILA, Nov. 15 (PNA)—The 'Kaya Natin!' coalition of 150 civil society groups and individuals has expressed its support for the Senate probe into the P728-million fertilizer scam. The coalition, which includes the Philippine Commission on Human Rights, the Philippine Center for Investigative Journalism, and the Philippine Human Rights and Democracy Foundation, said it believes the Senate's inquiry is a necessary step to ensure accountability and transparency in government procurement. The coalition also expressed its confidence in the Senate's ability to uncover the truth and bring the perpetrators to justice. The Senate probe, which began in October, is the first of its kind in the Philippines. It involves the investigation of a massive fertilizer scam that involved the purchase of 100,000 metric tons of fertilizer from a company that later went bankrupt. The scam, which was uncovered by the Senate, involved the purchase of fertilizer from a company that was later found to be a shell company. The Senate probe is expected to take several months to complete.

Gonzalez on Joe-joe inquiry: Senators are 'squeezing blood from stone'

MANILA, Nov. 15 (PNA)—Senator Antonio Trillanes IV said the Senate's investigation into the fertilizer scam is a "Joe-joe" inquiry, comparing it to the search for a needle in a haystack. He said the Senate is "squeezing blood from stone" by trying to find a few bad apples in a system that is fundamentally flawed. Trillanes, who is a member of the Senate Committee on Agriculture, said the Senate's inquiry is a waste of time and resources. He said the Senate should focus on reforming the procurement system instead of trying to find a few bad apples. Indie LPG dealers slash prices by P2/kg

By Bernard M. Llanera

THE indie LPG dealers in Metro Manila have slashed prices by P2 per kilogram, or 11 percent, to P16.50 per kg, effective Nov. 10, according to the Philippine Petroleum Association (PPA).

The price is considered the lowest in the country's history, according to PPA president Carlos S. Nolasco. "We have never seen such a low price before," he said.

Indie prices were pushed by the PPA's recent campaign to force the government-owned National Oil Corporation (NOC) to sell LPG at a lower price.

Electoral college for RP?

THE PROPOSAL TO AMEND THE 1987 CONSTITUTION TO ESTABLISH AN ELECTORAL COLLEGE FOR THE PRESIDENT OF THE PHILIPPINES IS A STEP IN THE RIGHT DIRECTION. IT IS A STEP TOWARD A MORE REPRESENTATIVE AND ACCOUNTABLE SYSTEM OF GOVERNANCE. THE CURRENT SYSTEM, WHERE THE PRESIDENT IS ELECTED BY A LIMITED NUMBER OF VOTERS, IS OUTDATED AND DOES NOT REFLECT THE WILL OF THE PEOPLE. THE PROPOSAL TO HAVE A COLLEGE OF ELECTORS, COMPOSED OF REPRESENTATIVES FROM ALL REGIONS AND SECTORS OF SOCIETY, IS A MORE FAIR AND BALANCED APPROACH. IT WILL ENSURE THAT THE PRESIDENT IS CHOSEN BY A DIVERSE GROUP OF CITIZENS, REPRESENTING THE VARIOUS INTERESTS AND OPINIONS OF THE PHILIPPINE PEOPLE. THIS IS A NECESSARY REFORM FOR A MORE DEMOCRATIC AND STABLE COUNTRY.

Figure 1 is a line graph showing the percentage of total catch versus the number of hauls for three species: *P. setiferus*, *P. setiferus* + *P. setiferus* + *P. setiferus*, and *P. setiferus* + *P. setiferus* + *P. setiferus*. The x-axis represents the number of hauls (1 to 10), and the y-axis represents the percentage of total catch (0 to 100). The graph shows that the percentage of total catch decreases as the number of hauls increases, with *P. setiferus* + *P. setiferus* + *P. setiferus* showing the highest percentage of total catch across all hauls.

Electric reps get LTO license

By Ronald R. Domingo

The Department of Transportation (DOTr) has issued a license to the Electric Reps Association (ERA) to operate as a public utility. The license allows the ERA to operate as a public utility, which means that it can collect fares from passengers and operate a public transportation system. The ERA is a group of electric rickshaw drivers who have been operating in the Metro Manila area for many years. The DOTr's decision to issue the license to the ERA is a significant step towards recognizing the electric rickshaw as a legitimate mode of public transportation.

October BOP deficit swells

The Bureau of Economic Analysis (BEA) has reported that the October balance of payments (BOP) deficit has swelled. The deficit is the difference between the value of exports and imports, and it has increased significantly in October. The BEA's report shows that the October BOP deficit was \$1.2 billion, up from \$0.8 billion in September. This increase in the deficit is a concern for the Philippine government, as it indicates that the country's trade balance is worsening.

The BEA's report also shows that the October BOP deficit was primarily driven by a large increase in imports. Imports increased by \$1.5 billion in October, while exports increased by only \$0.3 billion. This large increase in imports is a concern for the Philippine government, as it indicates that the country is importing more goods than it is exporting. The government is currently working to address this issue by implementing various trade policies.

Scrub time

Grooming is an important part of our lives. It's how we express ourselves and how we feel about ourselves. One of the most important parts of grooming is skin care. Scrubbing is a key part of skin care. It helps to exfoliate the skin, remove dead skin cells, and prevent acne. There are many different types of scrubs, so it's important to choose the right one for your skin type.

For dry skin, look for scrubs that are gentle and hydrating. For oily skin, look for scrubs that are more abrasive and help to control oil. For sensitive skin, look for scrubs that are fragrance-free and contain soothing ingredients like aloe vera.

When using a scrub, use your fingers to gently massage it into your skin. Don't use a brush or loofah, as these can be too harsh. After using a scrub, rinse your skin with warm water and pat it dry. Then, apply a moisturizer to keep your skin hydrated.
